The swingarm pivot was combined with the rear engine mount. A high performance power kit was also available. The gas tank had a new logo and the fork boots were black. The seat is both red and black. There was also new clutch springs. The swingarm pivot was combined with the rear engine mount. A high performance power kit was also available. The gas tank logo was redesigned to include a yellow Honda wing logo. There was also a new type rear subframe. The swingarm pivot was combined with the rear engine mount. A high performance power kit was also available. On the

muddy forest trails or out in the sand, this bike will put a big smile on your face. And one ride will tell you why. It's the sporting member of our 300 lineup, with a little more bodywork. The singlecylinder engine is light and narrow, making it easier to sit on the bike and get your feet on the ground at stops. And the singlecylinder powerband with its wide torque spread is perfect for both intown or freeway rides. The light weight makes it responsive on twisty roads. And the price is still lower than what you'd pay for a lot of used bikes. Its light, simple, fuel efficient and features a broad powerband with plenty of lowrevving torque just what you want in your first motorcycle, but geared for comfortable cruising at highway speeds. You get the narrow overall width and power advantages of a single along with the smoothness of a multicylinder bike. Compared to a carbureted bike, it also helps reduce emissions and enhance performance and fuel efficiency. It makes it easier to put your feet down at stoplights and in parking lots a big confidence builder. Plus, we offer a Honda Genuine Accessory seat that lowers seat height even further. UnderSeat Storage Removing the rear passenger seat provides a lockable area to throw a map, gloves or a spare set of sunglasses. In good condition. Motor runs great starts first kick, recent valve adjustment. New mikuni pumper carb.

New front and rear brakes, wheel bearings, dot dirt tires, sprockets and chain. Has vector computer speedometer and new metal hand guards. Still lots of fun to be had with this XR. Original owner. and it breaks my heart to let it go. Currently running, but the carb could use a good cleaning. Titled in South Dakota. Skid plate and brush guards on the handle bars. It's an offroad vehicle so it has the typical wear and tear associated with that class of vehicle. I also have a folding ramp that can go with it, as I'll no longer need it. Buyer responsible for shipping arrangements, local pickup available. I'll get more pictures upon request. Then this is the one you want. California plated, registration current, New Mikuni Carb, light kit with battery, high output stator, Trail Tech Vapor Dashboard, passenger pegs, new clutch, new tires, new sprocket, etc. New lightweight FMF racing exhaust. Other new parts air filter, tire etc. New front fork bushings and seals. Discoloration on tank sides is residual tank decal glue. Can be cleaned off but you just cannot keep the tank decals on the plastic tanks and ride and race them. Any gas spillage filling tanks attacks the glue on decal and it is gone. Even riding or racing your knees and riding pants would loosen and peel it off. Some extra parts sprkts and such. Ready to ride or race. Could entertain trades of pre 1985 vintage mx enduro bikes of Honda, Yamaha, Suzuki The engine does not leak any oil and has never been apart in any way. It comes with its original owner's manual and a clean California title. STS CLASSICS is a high end luxury car and motorcycle dealership that deals in vehicles that stir the soul. They specialize in only flawless original vehicles. We can pick up buyers from the airport that need to fly in to pick up the bike. There is no cost for this service.

Granted, it is driven a couple times a month to ensure the car stays fresh. The pictures I post do not do the car justice. I took it once to a local show and the crowd could not believe how clean the car was, it gathered so much attention the local paper wrote an article on it. I cannot express enough how clean this car is. I am so OCD with my vehicles that I had a custom clear bra installed on the bumper and light covers the day I got it and ordered a spare plate cover in order to keep the factory one in mint condition. The car is only cleaned by hand with Meguiars Gold products. You could not believe how perfect the leather seats are. The LS1 engine internally is

completely stock. I have EVERY factory part, down to the GM zip ties, gaskets, rear tires, converters, ETC that was removed and the car can easily be brought back to completely stock if so desired. All of the work on the car has been performed by myself, I have pictures to verify; nobody touches my car. Every nut and bolt that has been touched has been retorqued to factory spec. I have taken my time and overlooked every detail of this car.

With all of the UMI parts and tires the car is very stiff and takes off straight as an arrow. If I did not mention the Yank SS3200 Converter you would have NO IDEA it was there until your floored it. This car is flawless. It still smells new inside! Please, Please, Please, Feel free to ask any questions. I have become an Fbody enthusiast because of this car. I will work with the price if we start removing parts which I will only do once we have a written agreement and the car is paid for. This is a prestige example of a WS6 Trans Am with some extra additions; the BEST money can buy. You have got to see it to appreciate it. I have the CLEAN title in my safe. I have no problem having people stop by to see and hear it but I will not even take it out to drive unless you have cash and are serious. Do not waist my time and I will not waist yours. Handling. UMI Single adjustable Panhard Bar WRotoJoint Black. Electronics. Miscellaneous.
