Its designed for optimal listening and to hide the wires. Assemble the Bose UFS20 speaker stand with basic tools that you'll find around the house. Step 1 Stand the UFS20 base on the floor with the short end facing you. Unscrew the locking nut from the bottom of the stand's base with your fingers. Run the end of the speaker cable through the bottom of the base. Run the speaker wire through the bottom of the speaker stand and out of the bent top. Step 2 Insert the straight end of the speaker stand into the hole in the base. Screw the speaker stand into the base by rotating it with your hands. Stop screwing the stand into the base when the bent end at the top of the speaker stand is facing away from you. Step 3 Place the locking nut over the end of the speaker stand that is poking through the bottom of the base. Screw the locking nut back on with your fingers. Tighten the nut with pliers. Step 4 Connect the "Plus" and "Minus" labeled speaker wires on the speaker cable to the matching connections on the back of the Bose speaker. Place the back of the Bose speaker against the speaker plate at the top of the UFS20. Tighten the locking screws on the back of the speaker plate to secure it to the Bose speaker use a Phillips screwdriver. Repeat this entire procedure with the other UFS20 speaker stand. This stands worked perfectly universally. There's an extra cover 2 of them I did not use. Looking to buy those separately, but not sure what kind of screws or attachments these have. Thanks!The screw that holds the speaker onto the stand is on the stand itself. The speakers cable run down a small crevice built into the speaker stands. I want them to sit on thick carpet and I am worried they will be too too heavy and tip over when walking by. Thanks!Unless one is a literal BullinaChinaShop, one is very unlikely to tip one over accidentally IMHO. All manuals on ManualsCat.com can be viewed completely free of charge. Great look and conceals the wire so neatly. I would recommend these stands if you are thinking of not mounting the speakers onto the wall. I think these stands are amazing. Der Aufbau dauert ein bisschen länger, da die Kabel in der dafür vorgesehenen Nut verlegt werden müssen. Auch die Bedienungsanleitung ist hilfreich. Man hat jedoch leider keine andere Wahl da es keine Alternativen am Markt gibt bisher. Freue mich über jedes Like das ich von euch kriege, wenn euch die Rezession geholfen hat! Sorry, we failed to record your vote. Please try again Nice and heavy. All fittings included. A must if you have a pair of the small surround speakers for the 700 sound bar. They sound much better on the stands as they are at the right height. Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Ich finde sie auch vom Gewicht her richtig gut. Nun zum Manko Wer wie ich die BOSE Virtual Invisible Lautsprecher hat, ist so finde ich etwas angeschmiert. Es ist zwar der nötige Adapter dabei, nur hat dieser für den Auslass der Lautsprecherkabel in der Mitte. Die BOSE Virtual Invisible Lautsprecher haben ihren Anschluss im unteren Bereich. Das heißt, dass sie Lautsprecherkabel im S dahinter gequetscht werden. Ich habe bei BOSE auch keine andere Lösung finden können. Ich finde es etwas doof gelöst von BOSE. Sorry, we failed to record your vote. Please try again Hat man sich für BOSE entschieden sollte man wissen das man sich im höheren Preissegment befindet und nicht bei den Boxenständern anfangen zu sparen.

Die Anschaffung lohnt sich. Sorry, we failed to record your vote. Please try again Bose Ständer sind nun mal von Bose habe mir lange über ob man sie kaufen soll oder nicht der Preis ist nicht ohne. Ich habe auch versucht auf die Universal Ständer zurück zugreifen habe sie zurück geschickt das passte nix. Dann lieber etwas mehr Geld ausgeben und man ist sehr zufrieden Sorry, we failed to record your vote. Please try again Sehr massives Material. Die Speaker 700 waren leider nicht in der Anleitung abgebildet daher war es ein wenig raten aber man konnte sich ganz gut an den anderen Abbildungen orientieren. Daher 1 Stern abzug. Sorry, we failed to record your vote. Please try again Verpackung und Sicherung dann aber von Bose gewohnt absolut hochwertig und sicher. So das auch nach gründlicher Kontrolle keine Schäden am Produkt erkennbar waren. Ausgepackt kommen unerwartet viele Einzelteile zum Vorschein. Da es sich um einen Ständer für verschiedene Lautsprecher der Bose Familie handelt musste erst herausgefunden werden, welche Montage und dessen Einzelteile die richtige ist. Während dem Zusammenbauen und der Aufhängung der Boxen hatte ich mehrmals das Gefühl, bzw. Aber nach einigem hin und her und etwas aufwendigen Verlegung von Kabeln und Steckern bekommt man die Boxen dann an den Ort, wie und wo sie hin sollen. Aufgestellt dann ein echter Hingucker. Aufgrund der dünnen Stange und dem Verstauen des Stromkabels dahinter, innen drin, wirken die Boxen aus einigen Blickwinkel fast schwebend. Auf jedenfall ein lohnende Investition, hatte mir wie gesagt nur eine einfachere Montage gewünscht, wenn ich schon extra die original Bose Ständer anschaffe. Sorry, we failed to record your vote. Please try again Ocultan la vertical del cable, permiten giro del tubo dejando fija la base, son de muy buena calidad. En mi caso, para bose acoustimass 10 series v, de fabula. Sorry, we failed to record your vote. Please try again Buen tamaño.

La entrada para las VI300 requiere doblar un poco el cable pero nada que comprometa la integridad del cable o bocina. Sorry, we failed to record your vote. Please try again Standfestigkeit ist gegeben. Ob der Preis gerechtfertigt ist muss jeder selbst entscheiden ich finde ich etwas hoch. Der Aufbau ist etwas umständlich. Die Kabelführung am Rücken der Geräte ist für meinen Geschmack etwas zu locker. Es passiert schnell das die Kabel aus der Fassung springen und man muss sie anschließend wieder versuchen in die kleine Öffnung zu stopfen. Sorry, we failed to record your vote. Please try again Ich habe lange überlegt ob ich die Bose Ständer kaufen soll oder nicht, der Preis ist nicht

ohne. Ich habe auch versucht auf die UniversalStander zuruckzugreifen, aber nichts gefunden was mich wirklich uberzeugt hat. Zumindest wurde ich nicht enttauscht. Die Bodenplatten der Stander sind sehr massiv, das bringt einen guten Stand. Es sind auch jeweils vier FilzGleiter beigelegt, die an den Bodenplatten angeklebt werden konnen, so bleibt auch der Fliesenboden heil. Ansonsten durchdachtes System, die Kabel konnen nicht sichtbar verlegt werden. Die Lautsprecher Surround Speaker haben ja keine Gewindebohrung, daher ist der passende Adapter beigelegt. Fazit Gutes Produkt zum BosePreisSorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. James Bradt 5.0 out of 5 stars Easy instructions for setting them up, only took about 5 minutes to attach each speaker.Sorry, we failed to

record your vote. Please try again Etwas fummelige Montage. Ich empfehle unbedingt die Aufbauanleitung intensiv zu lesen, dann passt alles perfekt. Einige Zentimeter hoher waren wünschenswert, da sie schrag hinter meinem Sofa stehen und dieses eine Rückenlehne mit verstellbaren Kopfstützen hat. Der Preis ist etwas übertrieben, aber das gilt für den Rest meiner Bose Anlage ja auch. Deshalb war der Kauf von Billigvarianten für mich keine Option. Ich hoffe diese Rezension war hilfreich.

Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Leider habe ich eine gebrauchte Ware als neu erhalten. Normal sendet man es zurück, aber das Paket war riesig und sperrig und mir das ganze zu mühsam. Habe nun Farbe, Schrauben, Filz vom Bauhaus geholt. Sorry, we failed to record your vote. Please try again Proprio per queste ultime cercavo degli stativi da posizionare dietro al divano, dal momento che non volevo forare il muro per appenderle. Come al solito, spinto dalle recensioni ma soprattutto dalla sezione domande e risposte ho acquistato il suddetto modello di stativi. Non l'avessi mai fatto non sono minimamente compatibili con le Bose Surround 700. Ho ridato indietro il prodotto e alla fine ho trovato non su Amazon, purtroppo il prodotto giusto, sempre della Bose gli Bose OmniJewel Floor Stand, che vanno alla perfezione. Mi chiedo allora perché uno deve dare delle risposte sbagliate, senza minimamente documentarsi, e indurre un cliente a spendere male i suoi soldi e tempo. Riguardo alla qualità costruttiva invece, benché appunto il oggetto fosse sbagliato, nulla da dire la Bose è sinonimo di qualità, in tutto. Sorry, we failed to record your vote. Please try again Aber im Vergleich zu den neuen Boxenständern doch günstiger. Habe mir jetzt die OmniJewels bestellt leider noch nicht bei Amazon erhältlich. Bin gespannt, wie die sind. Sorry, we failed to record your vote. Please try again Nach dem Öffnen desselben fielen mir schon zahlreiche Schrauben, Unterlegscheiben sowie diverses weiteres Montagematerial entgegen. Die dazugehörige Tüte mit dem restlichen Montagematerial war auch bereits aufgerissen worden und wurde offensichtlich nicht wieder korrekt verschlossen. Dies waren die rückwärtigen Halterungen um die Surroundboxen von Bose an dem Ständer zu befestigen. Diese können auch als Wandhalterung genutzt werden. Ferner stellte ich fest, dass Teile bereits von einem möglichen Vorbesitzer montiert waren.

Das Ganze ist mehr als ärgerlich, da ich alles wieder einpacken und zurückschicken darf und nun ja auch mit meiner Endmontage meiner Bose Artikel so zunächst einmal nicht weitergekommen bin. Außerdem renne ich jetzt wieder meiner Gutschrift hinterher. Alles sehr sehr ärgerlich da die Ständer ja auch nicht wirklich preiswert sind. Der Materialwert durfte nicht mehr als 2030 Euro betragen. Passt also auf und überlegt euch wo ihr die Ständer hier kauft. Viel Erfolg! Sorry, we failed to record your vote. Please try again In dieser Preisklasse wohlgeartet für zwei Lautsprecherständer. erwarte ich dann aber auch ein durchdachtes Produkt. Die Kabelführung passt noch nicht mal für die ORIGINAL KABEL DER BOSE LAUTSPRECHER. Selbst diese fallen immer wieder raus oder gehen an manchen Stellen nur mit Kraft rein. Einfach nur traurig. Sorry, we failed to record your vote. Please try again Les pieds Bose sont tout ca. Le montage demande un peu de patience pour passer les cables d'enceinte dans la goulotte et on peut se demander si le systeme n'aurait pas pu etre mieux pense. Mais le resultat est neanmoins tres satisfaisant offrant une bonne tenue. Le poids de la base est suffisamment lourd pour garder une bonne stabilite meme avec des enfants prets a le demenager; et ne represente aucun danger. J'ai renouvele mon experience de mes enceintes Bose avant accrochees au mur dans une piece plus grande. Et ces pieds y contribuent. Achat recommande. Sorry, we failed to record your vote. Please try again La base è sufficientemente pesante per sorreggere senza problemi le casse bose. Unico neo la fessura per far passare il cavo è molto larga e tende ad uscire. Sorry, we failed to record your vote. Please try again Molto robusto e stabile. Ha diversi adattatori da usare in base al tipo di attacco per le casse le mie sono le Invisible 300 con attacco a slitta. Il supporto non è regolabile in altezza. Sul retro della cassa ce una gola per nascondere il cavo. Sorry, we failed to record your vote.

Please try again Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again Perche alcuni clienti hanno dichiarato falsamente che sono compatibili. Amazon dovrebbe verificare queste cose poco corrette. Sorry, we failed to record your vote. Please try again Austausch der ersten vor 15 Jahren gekauften Ständer. Gutes Erscheinungsbild. Sorry, we failed to record your vote. Please try again.
